

Utility Panels for Portal Monitoring Systems

MCE is supporting several projects involving the procurement and fabrication of several styles of utility panels for portal monitoring systems for ultimate end use in numerous European, Middle East, and Asian countries.

MCE's responsibilities include:

- Purchase of materials
- Panel layout red-line drawings
- Customer engineering support
- Fabrication and wiring of panels

- Continuity and functional testing
- Packaging and crating for overseas shipment.

All panels meet Underwriters Laboratory (UL) 508 and National Fire Protection Association (NFPA) 70 National Electrical Code (NEC).
